| DIMENSIONS | | | | | |
|------------|--------|----|----|-------|----|
| UNIT SIZE | A | B | C* | E | F |
| 003 | 16 1/4 | 13 | 12 | 8 1/8 | 13 |
| 004 | 16 1/4 | 13 | 12 | 8 1/8 | 13 |
| 006 | 19 1/4 | 16 | 12 | 9 5/8 | 16 |
| 008 | 19 1/4 | 16 | 12 | 9 5/8 | 16 |
| 010 | 19 1/4 | 16 | 12 | 9 5/8 | 16 |

NOTE 1: Model G units will accept maximum 5/8" thickness furring material fastened either with adhesive or screws with maximum 1/4" cabinet penetration.

NOTE 2: Standard cabinet height may impose restrictions where ceiling dimensions are less than 7' 10". Consult factory for special cabinet heights.

NOTE 3: All risers have a 2 3/4" center to center distance from the riser next to it. On 2-pipe systems, only the three middle risers will be installed on the unit.
